## OUR STORY

*Founded by Da Roz Bortolo, an Italian immigrant who landed on February 4th in 1891 Da Roz evolved with Brazil.*

*In 1911, importing equipment from Italy, the immigrant built Da Roz pasta factory. To stand out among the pasta factories in that period, he also brought from Italy a pasta cooking specialist, because the process in that moment was semi-manual, so it was necessary to know how about dough mix and point to be make on compression and piston machines. At that time, drying process was done by exposing the dough in the sun, after the process became to be done inside a masonry compartment with environmental ventilation and finally, with charcoal calorie, as we know today.*

*Nowadays the company is managed by Da Roz's new entrepreneur's generation.*

*Da Roz a company of tradition and quality!*

A complete line of products with durum wheat.

With selected ingredients, **Massas Da Roz** is the brand with Italian tradition, which for over 110 years has pleased the most demanding palates.
